

## Our Campaign Asks

### Financial access & Health:

- Provide a citizens income to empower people and support everyone to meet their basic needs;
- Reduce the price of healthy food, especially food that is in season and produced without chemicals;

### Geographical access:

- Plant fruit trees and veg gardens in cities and towns;
- Make it easier for small, local shops to provide fresh food and support social enterprises;

### Environment:

- Introduce restrictions on food waste and enable composting and recycling;

### Access to land, resources and skills:

- Make more land available for food production
- Provide subsidies to small farmers;
- Support communities to grow food, by making land, tools, seeds, training and financial resources available;
- Change food education to include focus on buying, preparing, sharing food -and to continue in high school;

### Community empowerment:

- Promote food justice sessions with people in many different communities and places;
- Support organisations to help vulnerable groups access food and represent their interests to government;
- Give more power to people;

### Governance:

- Enshrine the right to food in law;
- Monitor progress on building a Good Food Nation, establish accountability mechanisms;
- Provide guidance to public bodies;
